HAPPY PA WEEK!

PA Week is sponsored by the American Academy of Physician Assistants to call attention and honor how PAs serve their patients and community. Each year from October 6-12, National PA Week is celebrated in focus of the PA profession and its contributions not only to the state of Washington but to the nation's health.

Prior to being a weeklong event, National PA Day was first celebrated on October 6, 1987 in honor of the 20th anniversary of the first graduating class of PAs. October 6 is also the birthday of the profession's founder Eugene A. Stead Jr., MD.

This PA Week is especially significant as it falls during a global pandemic for the 2nd consecutive year. PAs have continued to step up in major ways, including serving on the frontlines of the COVID-19 response, regardless of specialty or setting. PAs place their health at risk every day to care for patients.

During this challenging time, PAs have not only proven themselves as flexible, adaptable, and collaborative but also ESSENTIAL. Essential to healthcare. Essential to patients. Essential to our communities.

WAPA looks forward to having you join us at the Fall conference at the historical and beautiful Davenport Hotel in Spokane, WA in celebration of PA Week!
